Dear Mr. Dent:

Re: Request for Reclamation Release, Carr Fork Reclamation Project, ARCO Coal Company, M/045/004, Tooele County, Utah

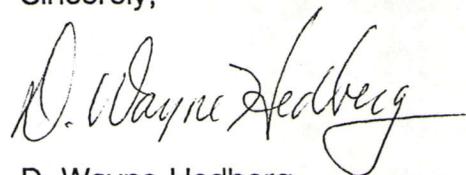

On April 23, 1990, we received your letter and final annual monitoring report for the reclaimed Carr Fork site. Your letter requests a final release from further reclamation liability for this site now that ARCO has monitored the site for the past three growing seasons. ARCO has provided a final monitoring report which is being evaluated by the Division for technical adequacy.

As indicated in Holland Shepherd's January 4, 1990 letter, we would like to perform one last site inspection before we grant ARCO a formal release from their Reclamation Contract. We would like to confirm that all is in accordance with the reclamation standards for final release. We have established June 20th, at 10:00 AM, as a tentative date for meeting with your representative onsite. If this date is not acceptable, please advise and we will reschedule accordingly.
